

Smash Assist Accident Help

Why download the App to your Smart Phone?

The Smash Assist App is designed to help iPhone & Android Smart phone users in the event of a motor vehicle accident. In a period of high stress, it empowers users to take correct steps immediately after an accident with priority on safety for all involved at the accident scene.

The steps are logical and clear and ensure that all relevant information is collected including the accident details, vehicle description/s, contact details of all involved including witnesses, insurance details etc.

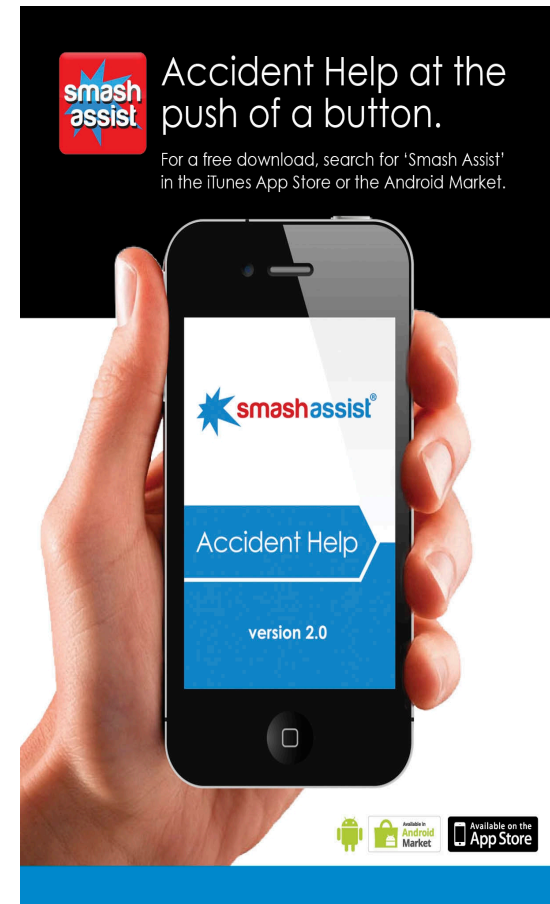

Calling of emergency services (000) is a simple push of a button.

For phone users in Brisbane / Gold Coast / NSW/VIC/TAS areas, the nearest Smash Assist Repair facility, can be identified or alternatively direct connection to a tow truck service.

More Smash Repairers will be added in the future.

The Smash Assist app has the ability to store the user's personal, vehicle and insurance company details for easy access.

Go to Apple iPhone iTunes App Store & Android App Market to download ,free, this user friendly Phone App.

smash assist Accident Help at the push of a button.

For a free download, search for 'Smash Assist' in the iTunes App Store or the Android Market.
